

4 U

*This shit right here is for you
All your faces I can see
You all think it's about me
I'm about to break
Is this my fate ?
Am I still damned to a life
Of misery and hate ?
You will never know
What I've done for you
What you are
Got me through
I'd do it for you
I could have, never lived
If it wasn't, for you*
