

## *Lies*

*I would like to search inside  
For all of the things that you will hide  
What's the problem?  
Can't you seem to  
Search through these problems that haunt and  
taunt you  
I smile, while you're afraid  
Your run, while you're so in pain*

*Do you ever see from outside your fears  
Thinking about your life  
Thinking about your inner fears*

*I would like to search inside  
For all of the things that you will hide  
What's the problem?  
Can't you seem to open your body and let me  
touch you*

*Do you ever see from outside your fears  
Thinking about your life  
Thinking about your inner fears*

*I want you to see the life you have disguised  
The world of things that hurt you  
Kept all these useless lies  
I want you to fear, fill you on up inside  
Once I took you in, I'll throw you out next time  
I tried, you win*

*My life is ripping your heart out and destroying  
my pain  
Go*

*Do you ever see from outside your fears  
Thinking about your life  
Thinking about your inner fears*
