

Fear Is A Place To Live

*I feel you all around me
Your voice, it surrounds me
You keep telling me what I want to hear*

*You're beautiful, so talented, I need you, we got a
thing
You ever need something I'll be right there*

*Fear is a place to live
Rip off the mask from your head
Show me the real face that you hide*

*I see you from a mile away
Keep staring, acting like you gotta say*

*You're beautiful, so talented, I need you, we got a
thing
You ever need something I'll be right here*

*Fear is a place to live
Rip off the mask from your head
Show me the real face that you hide*

*Fake ass people surround me
They're always nice to begin
Digging their claws*

*Fake ass people surround me
Digging their claws right in me*

*They're always nice to begin but
I always get fucked in the end*

*Fake ass people surround me
Digging their claws right in me
They're always nice to begin but
I always get fucked in the end
I always get fucked in the end
I always get fucked in the end
I always get fucked in the end
I always get fucked in the end*

*Fear is a place to live
Rip off the mask from your head
Show me the real face that you hide*

FAKE ASS, FAKE ASS

*Fear is a place to live
Rip off the mask from your head
Show me the real face that you hide*
