

Politics

*Everyone's corrupt
You should just shut up
Lay down, back off
The demon you disrupted*

*Don't wanna talk about politics
Don't preach or talk about politics
Don't let me talk about politics
Don't give a shit about politics*

(Chorus)

*You want to sleep with him to get to who you need
to know
Think that's the way to go don't you ?
It's in religion, sex, and everything we do and say
I look the other way won't you ?*

*Everybody's raped
Lying to your face
Kick's you in the gut
Slayed you here on the stop*

*Don't wanna talk about politics
Don't preach or talk about politics
Don't let me talk about politics
Don't give a shit about politics*

(Chorus)

*Tiniest dream living in your soul
Darkest life in the deepest hole
All the guilt from the things you've told
What you thought was so much fun
You'll have to pay for*

*Don't wanna talk about politics
Don't preach or talk about politics
Don't let me talk about politics
Don't give a shit about politics*

(Chorus)

*Don't wanna talk about politics
Don't preach or talk about politics
Don't let me talk about politics
Don't give a shit about politics*

*Don't wanna talk about politics
Don't preach or talk about politics
Don't let me talk about politics
Don't give a shit about politics!*
