

Spike in My Veins

*we are the ones taking all the pain
falling on our faces they dont care anyway
anyway now
your the one that makes me feel like im alive
your the one that pushes me all the time all the
time now*

*we are hard at play
always praised to do what they say
calling me deranged
feeling power
i must take his place some way*

*im never guna run away
seeking out my path but the pain always gets in
the way
slowly watch me die im insane so dangerous dont
you dare get in my way
throwing in the towel got me strained so betrayed
get the fuck out of my way
looking at my thoughts i take my time
pounding all these spikes in my veins*

*we are the ones reaching out in vein
trying to solve our problems they wont go away go
away now
your the one that makes me feel like im alive
your the one that pushes me all the time all the
time now*

we are hard at play
always praised to do what they say
calling me derange
feeling power
i must take his place some way

i'm never gonna run away
seeking out my path but the pain always gets in
the way
slowly watch me die i'm insane so dangerous dont
you dare get in my way
throwing in the towel got me strained so betrayed

looking at my thoughts i take my time
